VERÓNIKA KURÁDCHIK PEKÁRSKAYA

WORK & ORGANIZATIONAL PSYCHOLOGIST | PEOPLE ANALYTICS & PEOPLE INSIGHTS

Seville, Spain | vkpekarskaya@gmail.com | linkedin.com/in/veronikakupek

PROFILE

Work & Organizational Psychologist with professional experience in applied workforce research and HR consulting, combining organizational psychology with People Analytics, quantitative and qualitative evidence, and structured HR methods. Experience spans multinational workforce research, employee experience and well-being, competency frameworks, and evidence-based HR diagnosis. Currently completing a PhD in Human Resources Psychology (expected Jan 2027).

CORE EXPERTISE People Analytics & HR Analytics | Workforce & People Insights | Employee Experience | Organizational Development | Survey Research & Measurement | Psychosocial Well-being & Risk | Competency-Based Selection

PROFESSIONAL EXPERIENCE

Research Technician | Care4Care (Horizon Europe)

University of Seville | Dec 2023 - Dec 2025

- Contributed to a six-country workforce study on working conditions and well-being in home-based care, including multinational survey preparation and operations, data quality, harmonization and reporting (696 General Survey participants; 534 longitudinal participants; 2,111 weekly observations project-wide).
- Held primary technical responsibility for quantitative data preparation, analysis and interpretation using SPSS/Jamovi, including descriptive analysis, ANOVA, regression, reliability and repeated-measures/mixed-effects work; also contributed to cross-method interpretation.
- Co-authored Care4Care WP4 public deliverables (D4.2-D4.4), communicated findings to academic/professional stakeholders, and led first-author evidence-synthesis outputs.

HR Consulting Technician | Competency-Based HR Framework

CONSIDERA | Paid training contract | Oct 2022 - Jan 2023

- Supported, under the supervision of a senior HR professional, a public-sector organization's transition to a competency-based people management model.
- Consolidated and synthesized job information into structured role profiles, supporting their review and validation with the organization.
- Contributed to adapting the competency dictionary and behavioural indicators to the organizational context, and to assigning and validating the competencies associated with each role.

Research Intern

CIVIENCIA S.L. | Training contract | Dec 2020 - May 2021

- Conducted a literature review on the measurement of gender in surveys to inform the wording and measurement of this variable in a research project.

ADDITIONAL APPLIED EXPERIENCE

Organizational Psychologist | PREVICUIDA | Volunteer interdisciplinary collaboration | Nov 2025 - May 2026
Contributed to a web-based psychosocial-risk assessment initiative for home-care workers in Spain, including measurement scope, risk-profile logic and recommendations linked to profiles.

Visiting PhD Researcher | Erasmus+ Traineeship | University of Florence | Oct - Dec 2025
Analysed empirical data on psychosocial working conditions and well-being in long-term care; interpreted findings and drafted/revised scientific manuscript material with the host supervisor.

Research Collaborator | INDRHO | University of Seville | Academic years 2020/21 - 2022/23
Supported research-group activities on healthy, sustainable and inclusive organizations.

SELECTED HR & PEOPLE ANALYTICS PROJECTS

NovaData Insights | People Analytics | Academic team project | Simulated HR data
Primary analytical/technical contributor. Built an end-to-end attrition analysis across 649 employee-year records (2017-2025) using Power BI and KNIME: descriptive diagnosis, employee-experience indicators, statistical associations, scenario-based turnover costs and exploratory classification. Explicitly documented why the best model was not decision-ready for employee-level use.

Competency-Based Recruitment & Selection | Academic team project | Overall process design lead
Led the structuring of an end-to-end selection architecture from job and competency requirements through screening, multi-method assessment, structured competency interviewing, evidence integration and final decision logic. No real candidates were assessed.

Organizational Network Analysis | Individual reconstruction and re-analysis of a prior academic team case
Rebuilt and re-analysed directed relational data using Python, pandas, NetworkX and Gephi, separating positive/negative networks, reciprocity and ambiguity checks and translating observed patterns into cautious Organizational Development actions. No new organizational data were collected.

EDUCATION

PhD in Human Resources Psychology | University of Seville & University of Valencia | Nov 2023 - expected Jan 2027
Doctoral research on working conditions and well-being in care work.

Executive Program in People Analytics & HR Analytics | Universidad Internacional de La Rioja (UNIR) | Oct 2025 - Apr 2026 | 450 hours · 18 ECTS

MSc in Work & Organizational Psychology | University of Seville | Oct 2021 - Jul 2023 | Extraordinary End-of-Studies Award

BSc in Psychology | University of Seville | Sep 2016 - Jul 2021

METHODS & TOOLS

Analytics & BI | Power BI · DAX · KNIME · Excel

Statistics & Research | SPSS · Jamovi · Qualtrics · ATLAS.ti

Relational and Network Analysis | Gephi | Python · pandas · NetworkX (AI-assisted use)

Methods: descriptive and diagnostic analytics · regression · ANOVA · reliability · longitudinal/repeated-measures analysis · survey adaptation · evidence synthesis · construct operationalisation · qualitative material · organizational network analysis

LANGUAGES & ADDITIONAL TRAINING

Languages: Spanish - Native | Russian - Native | English - C1 (Cambridge Advanced)

Additional training: IBM SkillsBuild Data Analytics Certificate (60h, 2026) | IBM SkillsBuild Power BI Certificate (40h, 2025)

SELECTED PUBLIC OUTPUTS

Kuradchik-Pekarskaya, V., et al. (2026). *Antecedents of Well-Being of Home Care Workers: A Mixed-Methods Systematic Review.* The Gerontologist, 66(8), gnag131

Kuradchik-Pekarskaya, V., et al. (2026). *Strengthening Home-Based Care: Practical Recommendations to Support and Value Home Health Aides.* Firenze University Press

Co-author of Care4Care WP4 public deliverables D4.2, D4.3 and D4.4 (six-country workforce evidence).

SELECTED PRESENTATIONS & KNOWLEDGE TRANSFER

22nd European Association of Work and Organizational Psychology (EAWOP) Congress, Prague | 2025 | First-author oral presentation
An Explanatory Model of the Well-Being of Home Care Workers: Findings from a Mixed-Methods Review.

Care4Care stakeholder session | Spain | 2025 | Professional knowledge transfer
Presented findings on care workers' well-being and rights awareness to sector stakeholders.
